

SPIRULINA NATURAL®

For most anyone subject to stress and wanting a healthy, active lifestyle. Scientific and clinical studies show Spirulina powerfully protects the heart and brain from oxidative stress while supporting a healthy immune system.* For energy, vitality, and well being: use Earthrise Spirulina and feel what others are saying.

Spirulina is a microscopic plant without leaves, seeds or flowers, growing by the hundreds in a single drop of water. The spiral shaped fresh-water plant derives its energy from the sun. Earthrise grows the purest Spirulina in the south-east California desert. We learned long ago to ecologically farm Spirulina with no pesticides, herbicides, GMO or preservatives, for our families and yours.

Feel the Energy of Earth's Perfect Superfood
